To the Editorial Board of the „World Journal of Critical Care Medicine“

*The German Board of Anesthesiologists (BDA) and the German Society of Anesthesiologists (DGAI) supported the working group for personal management and its leading members (Weiss M, Marx G, Iber T) by a **non-profit grant** for travel expenses and meeting costs to achieve a generalizable approach to personal calculation in intensive care medicine in the G-DRG-system.*

Best regards

Prof. Dr. Alexander Schleppers
