

Non-Native Speakers of English Editing Certificate

Actually, as a non-native English speaker, I am aware of the journal's recommendation to utilize professional language editing services to enhance the quality of my manuscript prior to submission. I am a dedicated researcher committed to contributing valuable insights to the scientific community, and I am concerned that this limitation may hinder my ability to submit my work effectively. Currently, I face financial constraints (i.e., no academic or external funding) that prevent me from accessing these editing services.

Given these circumstances, I kindly request a waiver for the language editing requirement for my manuscript.

I assure you that I did strive to ensure the manuscript is as clear and coherent as possible : to ensure the clarity and quality of my work, I have sought external expertise for my manuscript on two separate occasions.

I appreciate your understanding and consideration of my request.
