

The revised manuscript does not conform to the journal's formatting and technical requirements. Please re-revise your manuscript accordingly.

Authors are required to provide standard three-line tables, that is, only the top line, bottom line, and column line are displayed, while other table lines are hidden. The contents of each cell in the table should conform to the editing specifications, and the lines of each row or column of the table should be aligned. Do not use carriage returns or spaces to replace lines or vertical lines and do not segment cell content.

The tables are modified according to the suggestions. All the tables contain only the top line, the bottom line, and all the vertical lines. However, the instructions aren't very clear as published articles use a different format and no sample could be found on the website.
