Institutional Review Board Approval Form or Document

The therapeutic interventions adhered strictly to the principles of medical ethics and the standards of good medical practice. Given the retrospective nature of our study design and according to Polish Law, this study did not meet the criteria of a medical experiment and does not need the approval of the Bioethics Committee (Confirmation number: KB - 700/22).

A handwritten signature in black ink, appearing to read 'Cwaliński', written over a horizontal dotted line.

Jarosław Cwaliński
