Uncomplicated spontaneous rupture of pancreatic pseudocyst ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3773861>

Sep 16, 2013 · There are only few **case** reports in **literature** of uncomplicated spontaneous rupture of **pseudocyst into** stomach[4,6,8,10]. In conclusion, we have presented a **case** of patient with a **pseudocyst**, resulting from a **complication** of chronic pancreatitis, which resolved spontaneously through the formation of a fistula between the **pseudocyst** and the stomach.

[PDF] CASE REPORT Massive gastric bleeding from ...

<https://citeseerx.ist.psu.edu/viewdoc/download?doi=...>

We report an unusual case of a 45-year-old woman with life threatening gastric bleeding from a **pseudoaneurysm of the splenic artery** as a complication of pancreatic pseudocyst perforating into the stomach. **Chronic alcoholic calcifying pancreatitis** was the principal disease and massive haemorrhage was surprisingly its first symptom.

Massive upper gastrointestinal bleeding from a pancreatic ...

europepmc.org/articles/PMC2769316

Aug 01, 2009 · Introduction. **Pancreatic pseudocyst** is a common finding in patients with previous acute or chronic pancreatitis, developing respectively in up to 15% and 40% of these groups of patients []. Rupture of the **pseudocyst** can result in **massive bleeding**, with a high mortality rate even for those patients whom undergone treatment.

Rupture of a bleeding pancreatic pseudocyst into the stomach

<https://www.researchgate.net/publication/11104341...>

A **bleeding pancreatic pseudocyst** following pancreatitis is a severe complication that can lead to massive gastrointestinal bleeding. Rupture of such a pseudocyst into the stomach is **rare**. We report...

Unusual Case of Life-Threatening Gastro Intestinal Bleed ...

<https://www.hindawi.com/journals/crigm/2019/8528906> ▾

Large upper **gastro intestinal (GI) bleeding** can be life-threatening. Splenic artery pseudoaneurysm (SAP) is rare but can cause **massive upper GI bleeding**. We **report a case** of a 57-year-old woman who had **massive upper GI bleeding** from SAP eroding **into** distal duodenum. **Literature review** shows SAP can bleed **into stomach** or **pancreatic pseudocyst** or biliary tree and peritoneal cavity; however, there ...
