## CHECKLIST OF RESPONSIBILITIES FOR SCIENTIFIC EDITORS

Manuscript NO.: 95327

Manuscript page number: 17 Rate: 6.2 CNY per page

Editing Fee: 105.4 CNY

Ethics and relevant document handling (如果作者首次修回手稿提交的伦理及相关文件, 经过科学编辑核实符合要求, 则不计算费用。如果作者首次修回手稿提交的伦理及相关文件, 经过科学编辑核实不符合要求, 经过科学编辑同作者联系沟通后, 作者最终提供了符合要求的文件, 则计算费用。单价为: 每个文件 16 元):

Audio Core Tip:       CNY

Biostatistics Review Certificate:       CNY

CARE Checklist-2016:       CNY

Clinical Trial Registration Statement:       CNY

Conflict-of-Interest Disclosure Form:       CNY

CONSORT 2010 Statement:       CNY

Copyright License Agreement:       CNY

Approved Grant Application Form(s):       CNY

Signed Informed Consent Form(s) or Document(s):       CNY

Signed Consent for Treatment Form(s):       CNY

Institutional Animal Care and Use Committee Approval Form:       CNY

Institutional Review Board Approval Form:       CNY

Non-Native Speakers of English Editing Certificate:       CNY

PRISMA 2009 Checklist:       CNY

STROBE Statement:       CNY

The ARRIVE Guidelines:       CNY

Total Editing Fee: 105.4 CNY

Scientific Editor: Ming Fan

Date of signature: Jun/5/2024 (month/day/year)

Item No.	Specific items for verification	Comments Yes=[Y] No= [N]
1	<p><i>General Information of the Manuscript</i></p> <p><b>Name of journal:</b> World Journal of Clinical Cases</p> <p><b>Manuscript NO.:</b> 95327</p> <p><b>Column:</b> Observational Study</p> <p><b>Title:</b> Survey on hospice care attitude of family members of advanced cancer patients at different ages</p> <p><b>Authors:</b> Xiao-Li Liu and Lun-Lan Li</p> <p><b>Reviewer code:</b> 07916789</p> <p><b>First decision:</b> 2024-05-15 09:11</p>	[Y]
2	<p><i>Editorial Office's Comments</i></p> <p><b>Science Editor:</b> 1.We are very pleased to receive your revised manuscript (No. 95327). However, the "Non-Native Speakers of English Editing Certificate" does not meet the requirements. Now, you are requested to send the revised manuscript to a professional English language editing company or a native English-speaking expert to polish the language further; 2."Key Words" does not meet the requirements: The 'Key words' list will provide 5-10 keywords that reflect the main content of the study. Please do not use abbreviations for the keywords; 3.In addition, please explain the "N" in table 4.</p> <p><b>Company Editor-in-Chief:</b> I have reviewed the Peer-Review Report,</p>	[Y]

full text of the manuscript, all of which have met the basic publishing requirements of the World Journal of Clinical Cases, and the manuscript is conditionally accepted. I have sent the manuscript to the author(s) for its revision according to the Peer-Review Report, Editorial Office's comments and the Criteria for Manuscript Revision by Authors. 作者返修手稿建议 尊敬的作者：为了提高作者手稿的学术质量和书写格式的规范性，缩短出版周期和节省时间，以及促进手稿顺利接受和在线发表，我们强烈建议作者采取以下措施以解决返修手稿过程中的重要问题。 第一，返修手稿。请作者邀请编辑部认可的论文润色公司 (<https://www.wjgnet.com/bpg/gerinfo/240>)，协助作者按照 Checklist for Authors to Revise a Manuscript 要求修改手稿中的每一项内容。另外，作者指南，见：<https://www.wjgnet.com/bpg/gerinfo/204>。 第二，同行评议。请论文润色公司，依据同行评议报告和科学编辑评论，协助作者对手稿的研究方法、数据分析和论点逻辑等进行进一步地审核，以确保手稿在学术上的正确性，协助作者解决审稿人提出的问题，并且逐条地回复审稿人的问题和建议。 第三，表格和图片。请论文润色公司协助作者解决表格和图片规范化的问题。表格应有表序和表题，并有足够具有自明性的信息，使读者不查阅手稿正文即可理解该表格的内容。表格内每一列均应有表头，表格内非通用缩写应在表格注解中说明，表格一律使用三线表格 (不用竖线)，并且在正文中该出现的地方注出。图应有图序、主题和图注，以使其容易被读者理解，所有的图应在正文中该出现的地方注出。同一个主题内容的彩色图、黑白图、和线条图，应统一使用一个主题，并且每个子图的注解分别叙述。如: Figure 1 Pathological changes of atrophic gastritis after treatment. A: ...; B: ...; C: ...; D: ...; E: ...; F: ...;

	<p>G: .... 第四, 参考文献。编辑部采用“顺序编码制”的著录方法, 即根据文献在文中引用顺序以阿拉伯数字编号排序, 并在文内引用处居中注明文献角码, 如: [1-3]。每篇参考文献应包含 PMID 和 DOI 号码。参考文献测试系统, 见: <a href="https://www.f6publishing.com/Forms/main/ArticleReferenceTool.aspx">https://www.f6publishing.com/Forms/main/ArticleReferenceTool.aspx</a>。第五, 语言润色。邀请论文润色公司协助作者解决手稿中的拼写错误、语法错误、时态错误、单复数错误、标点错误和科学用词错误等等。第六, 学术查重。邀请论文润色公司协助作者对手稿进行学术查重。手稿一旦被编辑部判定为存在抄袭, 将会被退稿。第七, 提交手稿。最终论文润色公司协助作者完成手稿修改, 并确认符合期刊标准后, 作者在 <b>Intelligent Manuscript Form Editor</b> 中提交手稿。</p>	
3	The fixed headings are copied.	[Y]
4	The title will concisely summarize the main topic of the study, being not overly long (no more than 18 words). Words such as ‘exploration’, ‘research’, ‘analysis’, ‘observation’, and ‘investigation’ are to be avoided. The title should not start with ‘A’, ‘An’, or ‘The’ and will not include any Arabic numbers or abbreviations.	[Y]
5	A short running title is provided (no more than 6 words).	[Y]
6	The authors' full family (sur)names and full/abbreviated first names are listed on the title page and are consistent with those listed in the signed Copyright License Agreement form.	[Y]
7	The ‘Author contributions’ passage describes the specific contribution(s) made by each author. The author’s names are listed in the following format: full family (sur)name followed by abbreviated first and middles names. <i>e.g., “Wang CL and Liang L contributed equally to this work; Wang CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the research study; Wang CL, Zou CC, Hong F and Wu XM performed</i>	[Y]

	the research; Xue JZ and Lu JR contributed new reagents and analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and Wang CL, Liang L and Fu JF wrote the manuscript. All authors have read and approve the final manuscript.”	
8	The ‘Supported by’ statement describes the source(s) of financial support and includes the corresponding identification number(s) and program ID(s) if available, and contains no spelling errors.	[N]
9	The ‘Corresponding author’ passage provides the corresponding author’s full first and family (sur)names, abbreviated title ( <i>e.g.</i> , MD, PhD), affiliated institute’s name and complete postal address (including zip code) and e-mail (written in all lowercase), and contains no spelling errors.	[Y]
10	The Manuscript Tracking information ( <i>i.e.</i> , Received, Revised,) are provided along with the corresponding editor and date for each item, and contain no spelling errors.	[Y]
11	The Abstract section is formatted according to the article-specific style (structured <i>vs</i> unstructured) and word count thresholds, as follows: <u>Editorial, Frontier, Medical Ethics, Minireview, Review:</u> Non-structured abstract that is no more than 200 words. <u>Field of Vision, and Letter to the Editor:</u> Non-structured abstract that is no more than 150 words. <u>Research articles:</u> Structured abstract with subsections for BACKGROUND (no more than 100 words); AIM (no more than 20 words); METHODS (no more than 80 words); RESULTS (no more than 120 words); and CONCLUSION (no more than 26 words). <u>Case Reports:</u> Structured abstract with subsections for	[Y]

	BACKGROUND (no more than 80 words); CASE SUMMARY (no more than 150 words); and CONCLUSION (no more than 20 words).	
12	The 'Key words list' will provide 5-10 keywords that reflect the main content of the study. Please do not use abbreviations for the keywords (e.g. ulcerative colitis, not UC). The first letter of each keyword will be capitalized, and each keyword will be separated by a semicolon.	[Y]
13	The "citation" contains authors' names and manuscript title. The name of the first author should be typed in bold letters; the family (sur) name of all authors should be typed with the first letter capitalized, followed by their abbreviated first and middle initials. For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM, Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes mellitus increases the risk of gastric cancer: A meta-analysis. <i>World J Gastroenterol</i> 2024; In press	[Y]
14	The Core tip is a short paragraph that is independent of the content of the Abstract. The 'Core tip' will provide a summary of the study that outlines the most innovative and important arguments. This section should be less than 100 words.	[Y]
15	The 'INTRODUCTION' section clearly describes the relevant background information for the study. Only the most relevant and current (within the past 5 years) literature is cited, with the exception of rare instances of seminal literature citations. All technical terms and/or abbreviations are explained and/or defined, with the full name of abbreviations given upon first appearance in the text and the abbreviation presented in parentheses [ <i>i.e.</i> , "...computed tomography (CT)"]. First-person pronouns (e.g., 'I', 'we') are used appropriately to clearly indicate the work performed by the author(s). When weaknesses of previous studies are described in the text to highlight the innovations related to the current study, the information is	[Y]

	presented carefully.	
16	The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data presented in the article and is adequate for a reader to repeat the study.	[Y]
17	The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure ( <i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear.	[Y]
18	Statistical symbols are accurate. Statistical significance is expressed as <sup>a</sup> $P < 0.05$ , <sup>b</sup> $P < 0.01$ ( $P > 0.05$ usually does not need to be denoted). If there are other series of $P$ values, <sup>c</sup> $P < 0.05$ and <sup>d</sup> $P < 0.01$ are used, and a third series of $P$ values is expressed as <sup>e</sup> $P < 0.05$ and <sup>f</sup> $P < 0.01$ . Statistical data is expressed as mean $\pm$ SD or mean $\pm$ SE.	[Y]
19	The 'DISCUSSION' section (1) describes the main purpose and hypothesis of the study; (2) summarizes the most important results; (3) illustrates and explains the results (but does not simply repeat the data) and draws conclusions or inferences based on the results; (4) points out the limitations of the study and their impact on the results, as well as proposes further advice on future research topic(s) or	[Y]

	direction(s); and (5) describes the theoretical significance and practical value of the findings.	
20	The 'ACKNOWLEDGEMENTS' section expresses gratitude to any individuals or organizations for technical support ( <i>i.e.</i> , providing instrumentation, equipment or experimental materials, and/or assistance in experimental work), non-technical services ( <i>i.e.</i> , useful inspiration, suggestions, guidance, or review), and/or any other auxiliary work.	[N]
22	The 'REFERENCES' section lists the references in the Vancouver style. This style uses Arabic numeral in-text citations based on the order of the first appearance of a source in the text. For citations where the author's name is indicated in the text, a superscript number should be placed following the name ( <i>i.e.</i> , "Pang <i>et al</i> "). For citations where no author is indicated, a superscript number should be placed at the end of the sentence. Respective examples are: "Ma <sup>[1]</sup> reported .....", "Pan <i>et al</i> <sup>[2-5]</sup> indicated ....."; "PCR has a high sensitivity <sup>[6,9]</sup> ." No superscript numbers are used when the reference number is described in the text; for example, "The experimental method used has been described in reference [8]." The style of reference citations in tables is the same as that in the text ( <i>e.g.</i> , Pan <i>et al</i> <sup>[2-5]</sup> , please see reference [8]).	[Y]
23	References have been edited by Auto-Analyser. Journal references have been verified to ensure that there are no duplicate references and that the PMID numbers are correct. For references not yet included in PubMed: the name of Chinese journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized ( <i>e.g.</i> , <i>Shijie Huaren Xiaohua Zazhi</i> ); the name of journals in other languages are listed	[Y]

	according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version.	
24	The number of cited references is appropriate for the article type, as follows: <u>Commentary</u> : no less than 50; <u>Review</u> : no less than 100; <u>Article</u> : no less than 30/26; <u>Case Report and Letter to the Editor</u> : no less than 1.	[Y]
25	The ethics-related statements are provided in accordance with the manuscript type ( <i>e.g.</i> , Manuscript No.-Institutional review board statement, Manuscript No.-Animal care and use statement, <i>etc.</i> ).	[Y]
26	The names of the peer reviewers and the scientific editor are present at the end of the paper ( <i>e.g.</i> , P-Reviewer: Hugot D S-Editor: Wang JL L-Editor: P-Editor:).	[Y]
27	The order and numerical labeling of tables and figures is consistent with their appearance and presentation in the text. Symbols in tables ( <i>e.g.</i> , +, -, ×, ÷, *) correctly correspond to the definitions in the footnotes. Only one legend is provided for each multi-panel figure consisting of color graphs, black and white graphs, or line graphs that depicts data of the same theme. For example: <b>Figure 1</b> Pathological changes in atrophic gastritis tissue before and after treatment. A: ...; B: ...; C: ...; D: ...; E: ...; F: ....	[Y]
28	The original figure documents have been provided. The figures have been arranged using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed. Split pictures include flow charts, line graphs, histograms, and graphs including text. Unsplit pictures include meta-analysis diagrams, PCR amplification curves, and	[N]

	survival curves.	
29	Standard three-line tables have been provided, that is, only the top line, bottom line, and column line are displayed, while other table lines are hidden. The contents of each cell in the table should conform to the editing specifications, and the lines of each row or column of the table should be aligned.	[Y]
30	The author(s) highlighted the changes made to the manuscript according to the peer-reviewers' comments.	[Y]
31	The responses to the peer-reviewers' comments are consistent with the changes made to the manuscript.	[Y]
32	A <i>CrossCheck</i> investigation (an effective tool for detecting unoriginal content, enabling our editors to preserve the journal's integrity and the authors' copyright) has been performed for the manuscript <i>via</i> the website: <a href="http://www.ithenticate.com/">http://www.ithenticate.com/</a> . The results document contains the following information for the manuscript: "Name of journal", "Manuscript No.", "Columns", "Title" and "Author list". The Figure of the <i>CrossCheck</i> results is saved in PNG format (.png) at 1440 × 680 pixel resolution. The PDF of the <i>CrossCheck</i> results has been saved under the file name: manuscript No.- <i>CrossCheck</i> report (e.g., 870- <i>CrossCheck</i> report). The Google searches have also been performed to further ensure publication of original content.	[Y]
33	The revised manuscript is provided (file name: Manuscript No. _Auto_Edited; e.g., 89870_Auto_Edited). The letter of peer-reviewers' comments is provided (file name: Manuscript No.-Peer-review(s); e.g., 870-Peer-review(s)). The response letter is provided (file name: Manuscript No.-answering-reviewers; e.g., 89870-answering-reviewers).	[Y]
34	The related ethics and relevant documents are provided, such as (1) Approved grant application form(s) or funding agency copy of any approval document(s) (file name: Manuscript	[Y]

	No.-foundation-statement); (2) Biostatistics review certificate (file name: Manuscript No.-biostatistics-statement); (3) Conflict-of-interest statement (file name: Manuscript No.-conflict-of-interest-statement); (4) Clinical trial registration statement (file name: Manuscript No.-clinical-trial-registration-statement); (5) Institutional review board approval form or document (file name: Manuscript No.-institutional-review-board-statement); (6) Institutional animal care and use committee approval form or document (file name: Manuscript No.-institutional-animal-care-and-use-committee-statement), and (7) Signed informed consent form(s) or document(s) (file name: Manuscript No.-informed-consent-statement), <i>etc.</i>	
<b>35</b>	All authors signed the Copyright license agreement form online (file name: Manuscript No.-copyright-assignment; <i>e.g.</i> , 89870-copyright-assignment).	<b>[Y]</b>
<b>36</b>	The language certificate provided by authors who are non-native speakers of English meets the requirements (file name: Manuscript No.-non-native-speakers; <i>e.g.</i> , 870-non-native-speakers).	<b>[Y]</b>
<b>37</b>	The photos licensed in the Agreement for Use of Personal Photos are consistent with those in the paper (file name: Manuscript No.-Agreement for use of personal photos; <i>e.g.</i> , 870-Agreement for use of personal photos).	<b>[N]</b>
<b>38</b>	The Editor has sent the edited manuscript to authors for proofreading.	<b>[Y]</b>
<b>39</b>	This document (Checklist of Responsibilities for Scientific Editors) has been saved under the file name: manuscript No.-Scientific editor work list ( <i>e.g.</i> , 870-Scientific editor work list).	<b>[Y]</b>
<b>40</b>	The text of the manuscript is typed in Book Antiqua font, 12 pt, with 1.5 line spacing.	<b>[Y]</b>
