**Abstract**

Atrial fibrillation is the most common arrhythmia in clinical practice. Several conventional and novel predictors of atrial fibrillation development and progression (from paroxysmal to persistent and permanent types) have been

4 Jun 2013 ... Atrial fibrillation (AF) is the most common arrhythmia requiring medical attention. .... It's possible that CPAP could prevent the development of AF given the fact ... of atrial fibrillation (AF), and adding it as a scoring element to current risk ... for predicting AF progression may have valuable clinical applications.

### [Settling the Score: Stroke Prediction in Atrial Fibrillation\\*](#)

[content.onlinejacc.org/article.aspx?articleid=1915293](http://content.onlinejacc.org/article.aspx?articleid=1915293)

21 Oct 2014 ... More recently, the anticoagulation and risk factors in atrial fibrillation (ATRIA) score was developed and validated on the basis of a sample ... The cohort in the present study was at relatively high risk for ischemic ... It is also worth mentioning that patients' perspectives on what constitutes "low-risk" may differ.

### [Adding Rigor to Stroke Risk Prediction in Atrial Fibrillation](#)

[content.onlinejacc.org/article.aspx?articleID=2090129](http://content.onlinejacc.org/article.aspx?articleID=2090129)

27 Jan 2015 ... Adding Rigor to Stroke Risk Prediction in Atrial Fibrillation\* ... stroke with AF were first identified (6), guidelines have adopted a risk-based perspective. ... Thus, we need to apply rigorously developed and validated approaches to the ... However, given the current state of knowledge, AF patients .65 years of...
