Dear Dr Jiang,

***Identifying molecular markers for functional maturation of pancreatic  $\beta$  cells***

I am pleased to inform you that the Committee of Management has endorsed recommendations concerning the 2013 Research Grant applications. The resources granted for your project are:

**Funding: \$16,500      1 x FTE Research Assistant for 6 months**

These resources will be available from 1<sup>st</sup> January, 2013. Although the funds will be provided by the Medical Research Foundation the grant will be administered through the Finance Officer of WAIMR at "B" Block, Sir Charles Gairdner Hospital. After authorisation, invoices associated with the grant should be submitted to that office.

It is a definite requirement that funds can only be expended on items that were contained within your grant application.

It should also be noted that the grant has been made on the basis that the project will commence in 2013 and that substantial progress will be made prior to 31<sup>st</sup> December, 2013. Unspent monies at that date will be subject to review by the Combined Research Committee.

Reports on projects are required for evaluation purposes. If your project is incomplete as at 31<sup>st</sup> December, 2013 you will be required to submit a Progress Report before 1<sup>st</sup> March, 2014. If however, your project is completed before the 31<sup>st</sup> December, 2013, you should submit a Final Report before 1<sup>st</sup> March, 2014. Should you have any queries, please contact me on ext. 43941.

Copies of the report forms, which also include a section for the Ethics Committee relating to Human Studies, will be forwarded to you in due course.

***A condition of this grant is that the project be immediately recorded on the RMS database and that the Acceptance of Offer (attached) is returned to RAAG by 19<sup>th</sup> December, 2012.***

Yours sincerely,

Doug King,

Dear A/Professor Jiang

### **Telethon - Perth Children's Hospital Research Fund 2013 (Round 2)**

Thank you for your application for funding under the Telethon - Perth Children's Hospital Research Fund 2013 program. The review panel has concluded its assessment of 73 highly competitive applications and I am pleased to advise that an amount of **\$199,365** has been awarded to you to undertake the project: *Manufacturing mature glucose-responsive insulin-secreting cells for type 1 diabetes therapy*.

If you wish to accept this grant please complete the attached 'Acceptance of Offer' form in conjunction with the administering institution's research administration and finance officers. Please outline any agreed changes to the project proposal that you have made to accommodate the amount offered (where lower than application request) and return the acceptance form no later than **Tuesday 17 June 2014**, thereby acknowledging that you accept the terms of the grant (as set out in the *Telethon - Perth Children's Hospital Research Fund 2013 Application Pack*). An electronic 'Acceptance of Offer' form can be obtained upon request.

As per section 2.4 of the Application Pack, all relevant governance approvals, including ethics and institutional approval, must be obtained and copies submitted to the Department of Health's, Research Development Unit (RDU), before commencement of the project. Where applicable, Intellectual Property (IP) agreements must be finalised within 2 months of commencing your project. An IP template is available from the RDU upon request. Should your team include a Department of Health (DoH) employee, please ensure that the RDU has authorised the IP agreement between any non-DoH parties involved in the project.

Payment of grants above \$50,000 will be made in two equal instalments. The first instalment of your grant **\$99,682.50**, will be transferred to the nominated

administering institution upon receipt of governance approvals and the remaining amount will be transferred after receipt of the Progress Report.

If you require alternative payment arrangements to be made, please contact the RDU at [CMOResearchDevelopment@health.wa.gov.au](mailto:CMOResearchDevelopment@health.wa.gov.au).

I wish to emphasise that by accepting this offer you agree that the project will be completed with a final report and acquittal statement delivered to the RDU by 12 September 2016, and that reporting will include a clear focus on the translation of research findings into health gain for children and adolescents in Western Australia.

A member of the RDU will be assigned to your research project to act as your liaison officer with the Department of Health and to assist with reports and the processing of payments.

As mentioned above, a progress report outlining progress to date is required mid-way through the project. A template and due date for this report will be provided to you at a later date by your liaison officer. Please note that funding may be terminated or withdrawn for a project where insufficient progress has been made.

We request that you await an official media statement by the Minister for Health announcing recipients of this funding before you and/or the administering institution publicise the success of your application. I also ask that you kindly acknowledge the Channel 7 Telethon Trust and the Department of Health as media opportunities arise.

The Channel 7 Telethon Trust and the Department of Health wish to congratulate you and your team for submitting a high quality research proposal that has the potential to improve the health of children and adolescents in WA and wish you every success with the project.

Any queries can be directed to the Research Development Unit, by phone on 9222 4053 or email at: [CMOResearchDevelopment@health.wa.gov.au](mailto:CMOResearchDevelopment@health.wa.gov.au).

Yours sincerely
