### Trichoscopy: Essentials for the dermatologist

Juan Antonio Moreno Romero, Ramon Grimalt

#### Abstract

Noninvasive in vivo imaging techniques have become an important diagnostic aid for dermatology. Dermoscopy, also known as dermatoscopy, has been shown to increase the clinician's diagnostic accuracy when evaluating cutaneous neoplasms. Dermoscope, both handheld and videodermoscope, are nowadays a basic instrument for almost all the dermatologists around the world.

Trichoscopy is the term coined for dermoscopic imaging of the scalp and hair. Routinely using dermoscopy and recognizing the structures and patterns of the different types of
