Prediction of malignancy and adverse outcome ¹ of solid pseudopapillary tumor of the pancreas

Li You, Feng Yang, De-Liang Fu

Abstract

Since being included in the World Health Organization classification in 1996, solid pseudopapillary tumor of the pancreas (SPTP) has recently received special attention in the literature. Studies have shown that SPTP is a heterogeneous tumor, with a small percentage of patients harboring aggressive behaviors. However, criteria for malignancy in SPTP have not been
