SPECIFIC COMMENTS TO AUTHORS

Dear Editor Thank you for asking me to review the paper. It is well structured. However, the topic is so wide and searching of only one database is not enough. The authors should search and other bibliographic databases e.g EMBASE etc

SPECIFIC COMMENTS TO AUTHORS

1) Alternatives to liver transplantation such as liver support systems, including bioartificial livers, and hepatocyte transplantation are important therapies to overcome the problem of liver shortage. 2) The review is too superficial and lack of in-depth discussion on each method

SPECIFIC COMMENTS TO AUTHORS

The idea of this review is good. However, it is too simple and lacks depth. It is recommended that the authors increase the database size and have a deeper discussion.
