SPECIFIC COMMENTS TO AUTHORS

Dear author, It is a well designed and hard working study. If you write the incidence of IBD of each country in separate paragraphs, it would be more easy to read. Yours sincerely.

SPECIFIC COMMENTS TO AUTHORS

The Authors performed a systematic review of all papers dealing with PIBD incidence worldwide. The paper is well written and clear but I have two major concerns: Discussion section is extremely long and should be moved to results section in a Table

format (as partially done by the Authors). As such, the discussion must be completely rewritten. I do not think that this paper adds new knowledges to the available literature data but confirms what is already known providing a clear picture of the incidence of PIBD. This looks more like a popular publication than a scientific paper. Alternatively, the paper could be submitted to a more epidemiologically-oriented Journal.
