ESPS Manuscript NO: 22919

Manuscript Type: SYSTEMATIC REVIEWS

DATA SHARING STATEMENT

Data Sharing Statement:

The paper entitled “Portal hypertensive gastropathy: Pathophysiology, clinical presentation, natural history, and therapy” by Mihajlo Gjeorgjievski, M.D., & Mitchell S. Cappell, M.D., PhD. submitted as manuscript # 22919 to the World Journal of Hepatology is a systematic review with no original data or original statistics presented. No additional data are, therefore, available.

Basic research and clinical research studies require a data sharing statement. The data sharing statement will be provided in the title page, and will be presented in the following form:

Technical appendix, statistical code, and dataset available from the corresponding author at Dryad repository, who will provide a permanent, citable and open-access home for the dataset. In addition, a copy of the signed statement should be provided to the BPG in PDF format.

Sample wording: Technical appendix, statistical code, and dataset available from the corresponding author at [email address or URL]. Participants gave informed consent for data sharing [or ...consent was not obtained but the presented data are anonymized and risk of identification is low... or consent was not obtained but the potential benefits of sharing these data

outweigh the potential harms because...]". If no other data, please state: No additional data are available.
