Pisa, 25th March 2013

Object: Language evaluation of ESPS the manuscript No 8521

As reported in the email below, the language of our manuscript " Bio-tribology of artificial hip joints " is going to be evaluated by AmEditor Evaluation Team. The manuscript is currently under review (we are waiting for the quote) and we are going to upload both the certificate and the revised manuscript as soon as they are available, hopefully by the end of this week (Friday, 28th). Please let us know if it is too late for you.

Best regards,

Lorenza Mattei, Eng, MD, PhD

Dear Dr. Puccio,

Thank you for coming to us with this inquiry. Your paper has been assigned to an editor of AmEditor Evaluation Team. She would like to read your entire paper carefully to determine the best service that will fit it and then we will provide a price quote for the certificate service (based on word count).

By the way, May I kindly ask what your exact submission deadline is?

Thank you for your patience while we give your document our attention.

Kind regards,

Theresa
