Liver immunology and herbal treatment

Yasemin H Balaban, Ceylan Aka, Ufuk Koca-Çalışkan

Abstract

Beyond the metabolic functions, the liver recently has been defined as an organ of immune system, which have central regulatory role for innate and adaptive immunity. The liver keeps a delicate balance between hepatic screening of pathogenic antigens and immune tolerance to self-antigens.

M. Eric Gershwin, John M. Vierling, Michael P. Manns - 2013 - Medical

In addition to prescribed drugs, herbal preparations most likely represent an important yet difficult to quantify factor in hepatic drug toxicity. This can proceed as a
