Basic Study

Fibrinogen-thrombin collagen patch reinforcement of high-risk colonic anastomoses in rats

Suárez-Grau JM *et al.* Prevention of colonic leak in a rat model

Juan Manuel Suárez-Grau, Carlos Bernardos García, Carmen Cepeda Franco, Cristina Mendez García, Salud García Ruiz, Fernando Docobo Durantez, Salvador Morales-Conde, Javier Padillo Ruiz

Abstract

AIM: To evaluate the effectiveness of the human fibrinogen-thrombin collagen patch (Tachosil®) in the reinforcement of high-risk colon anastomoses.
