

Supplementary Figure 1 Drug resistance of gastric cancer cells induced by paclitaxel combined with cisplatin. A: Comparison of the IC₅₀ value between SGC-7901 and SGC-7901/PTX+CP. B: Sensitivity curves of SGC-7901 and SGC-7901/PTX+CP to PTX+CP. C: E2F1 expression of SGC-7901/PTX+CP during induction. D: MiR-34c expression of SGC-7901/PTX+CP during induction. E: Comparison of E2F1 expression between SGC-7901 and SGC-7901/PTX+CP. F: Comparison of miR-34c expression between SGC-7901 and SGC-7901/PTX+CP. ^a*P* < 0.05, ^b*P* < 0.01, and ^c*P* < 0.001.
