Lyon, the 21st of July 2021

Object: Informed consent for Amadou et al 2021

Dear Prof. Ma,

The study described in the article "Decrease in liver cancer incidence rates in Bamako-Mali over 28 years of population-based cancer registration [1987-2015]" by Amadou et al did not include the recruitment of volunteers or patients and therefore, did not require signed informed consents.

Yours sincerely
