À GORMALLY Emmanuelle; csu.dis

Dear Emmanuelle,

Thank you for your email and your interest in IARC's cancer statistics.

We would be very happy for you to use the requested information.

Thank you for citing the GCO and the related papers using the references you already mentioned.

Best wishes,

Éric

Dear Sir/Madam,

I have made a figure from a map generated by Cancer Today. This figure is for a publication in a scientific journal. On the figure I have left the following:

Data source: GLOBOCAN 2020
Graph production: IARC
(<http://gco.iarc.fr/today>)
World Health Organization

All rights reserved. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization / International Agency for Research on Cancer concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate boundaries for which there may not yet be full agreements.

In the figure legend I have referred to: <http://gco.iarc.fr/today> (Sung et al 2020; Ferlay et al 2021)

Could you let me know if the map can be used, if I need to obtain special permission for its use and if the above references are enough for publication?

I thank you for your time and help. I am at your disposal to discuss this point.

Best regards,

Best regards,

Emmanuelle GORMALLY
