SPECIFIC COMMENTS TO AUTHORS

Many parts of the manuscript have no reference citation. Please check the whole manuscript accordingly.   A recent systematic review and meta-analysis (10.1002/jmv.27996) documented that new-onset type 1 diabetes and ketoacidosis have increased worldwide during the pandemic period. This issue should be mentioned in 'DIABETES IN CHILDREN AND ADOLESCENTS' to explain the current review's importance.   At least a summary graph is needed to explain the study's schematic.

SPECIFIC COMMENTS TO AUTHORS

Dear Authors, the Manuscript "Diabetes Mellitus: An overview on the types, prevalence, comorbidity, complication, genetics, economic implication and treatment" is extensive but offers no novelty. Therefore I don't find it applicable for the WJD.
