How to establish endoscopic submucosal dissection in western countries

Tsuneo Oyama, Naohisa Yahagi, Thierry Ponchon, Tobias Kiesslich, Frieder Berr

Abstract

Endoscopic submucosal dissection (ESD) has been invented in Japan to provide resection for cure of early cancer in the gastrointestinal tract. Professional level of ESD requires excellent staging of early neoplasias with image enhanced endoscopy (IEE) to make correct indications for ESD, and high skills in endoscopic
