

Open access

Frontiers is a gold open access publisher. At the point of publication, all articles from our portfolio of journals are immediately and permanently accessible online free of charge. Frontiers articles are published under the [CC-BY license](#), which permits unrestricted use, distribution, and reproduction in any medium, provided the original authors and the source are credited.

Gold open access publishing services, which include end-to-end support – from research integrity and peer review, through to innovations in technology and artificial intelligence as well as global dissemination – are supported through Article Processing Charges (APCs). APCs enable the long-term stability of our program, and facilitate equal opportunity to seek, share and create knowledge that benefits all society without restriction. Quality is maintained through rigorous peer review
