[Idiopathic Non-Cirrhotic Intrahepatic Portal Hypertension ...](https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4284211)

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4284211>

Jul 28, 2014 · Chronic microangiopathy **of portal** venules results in idiopathic non-cirrhotic intrahepatic **portal hypertension (NCIPH)**. Recent data suggest a role for vasoactive factors **of portal** venous origin in the pathogenesis of this 'pure' vasculopathy of the liver. Enteropathies (often silent), are an important 'driver' of this disease.

[Non Cirrhotic Portal Fibrosis - Current concepts ...](https://medcraveonline.com/GHOA/GHOA-05-00128)

<https://medcraveonline.com/GHOA/GHOA-05-00128> ▾

Mar 13, 2016 · **Non cirrhotic portal fibrosis (NCPF)** is characterized by **perivenular fibrosis** of the small and medium branches of the **portal vein resulting in portal hypertension (PHT)** while the liver structure and function remain normal. This results in an increased **portal venous pressure gradient** in the absence of a known **cause of liver disease**.
