Management of unstable angina in a patient with Haemophilia A

Andreina Carbone, Tiziana Formisano, Francesco Natale, Maurizio Cappelli Bigazzi, Donato Tartaglione, Enrica Golia, Felice Gragnano, Mario Crisci, Renato Maria Bianchi, Raffaele Calabrò, Maria Giovanna Russo, Paolo Calabrò

Abstract

Hemophilia A is an X-linked recessive disorder characterized by a deficiency of coagulation factor VIII (FVIII) and therefore by a greater risk of bleeding during percutaneous interventional procedures and during the dual antiplatelet
