Non-celiac gluten sensitivity: All wheat attack is not celiac

Samuel O Igbinedion, Junaid Ansari, Anush Vasikaran, Felicity N Gavins, Paul Jordan,
Moheb Boktor, Jonathan S Alexander

Abstract

Currently, 1% of the US population holds a diagnosis for Celiac Disease (CD), however, a more recently recognized and possibly related condition, "Non-Celiac Gluten Sensitivity" (NCGS) has been suggested to affect up to 6% of the US public. While reliable clinical tests for CD exist, diagnosing individuals affected by NCGS is still complicated by the lack of reliable biomarkers and reliance upon a broad set of
