Chronic radiation proctopathy - a practical review of endoscopic treatment

Luciano Lenz, Rachel Rohr, Frank Nakao, Ermelindo Libera, Angelo Ferrari,

Abstract

Chronic radiation proctopathy (CRP) is a troublesome complication of pelvic radiotherapy. The most common presentation is rectal bleeding. CRP symptoms interfere with daily activities and decrease quality of life. Rectal bleeding management in patients with CRP represents a conundrum for practitioners. Medical therapy is ineffective in general and surgical approach has a high
