SPECIFIC COMMENTS TO AUTHORS

This is an interesting study, but I have a few comments: 1) in the abstract, it is necessary to spell out all abbreviations at the first mention; 2) the chapter Results should be literary revised for better understanding; 3) In the Discussion chapter, a discussion of the strengths of your study and its limitations should be added

SPECIFIC COMMENTS TO AUTHORS

Even if the inclusion and exclusion criteria are specified, how did we arrive at a perfectly equal number of the two study groups? Specify well any limitations of the work identified by the authors.
