

Biostatic statement

Title: Associations Between Food Insecurity with Gestational Diabetes Mellitus and Maternal Outcomes Mediated by Dietary Diversity Index: A Cross-Sectional Study

The statistical methods of this study were reviewed by Dr Jigeng Bai, a biostatistician from Naval Medical University and the Chief Director of Children's Hospital of ShanXi. The review included an evaluation of the statistical techniques employed, ensuring they were adequately described and appropriate for verifying the results.

Please contact me if any information is required.

Dr. Jigeng Bai

Chief Director, Professor

Children's Hospital of ShanXi, Naval Medical University
