Hepatitis B in patients with hematological diseases: An update

Chiara Coluccio, Paola Begini, Alfredo Marzano, Adriano Pellicelli, Barbara Imperatrice, Giulia Anania, Gianfranco Delle Fave, Massimo Marignani

Abstract

Hepatitis B virus (HBV) reactivation (HBVr) in patients undergoing immunosuppressive therapy is still a hot topic worldwide. Its prevention and management still represents a challenge for specialists dealing with immunosuppressed patients. Aim of this paper is to provide a critical review of the relevant information emerged in the recent literature regarding HBV
