### *Retrospective Study*

#### **Prognostic factors of response to endoscopic treatment in painful chronic pancreatitis**

Alina Tantau, Alina Mandrutiu, Daniel-Corneliu Leucuta, Lidia Ciobanu, Marcel Tantau

### **Abstract**

#### *AIM*

To evaluate the endoscopic treatment efficacy and prognostic factors of long-term response to treatment for painful chronic pancreatitis.

#### *METHODS*

This retrospective analysis identified 168 patients with painful chronic pancreatitis hospitalized during January 2010-January 2015 in a Romanian tertiary referral center. Data on demographics, medical history, alcohol consumption, smoking habit, clinical parameters, type and number of endoscopic procedures and hospital admissions
