<input type="checkbox"/> Grade E (Poor)		<input type="checkbox"/> Existed	<input checked="" type="checkbox"/> Minor revision
		<input type="checkbox"/> No records	<input type="checkbox"/> Major revision

COMMENTS TO AUTHORS

A well written and interesting paper. The long text in Discussion, under the heading "Industrial branches and specific exposure" should be considerably shortened and relocated to the Introduction. The last sentence in Conclusions is not an inference from the results and could be transferred to the Discussion, or omitted.
