

Ampulla of Vater carcinoma: molecular landscape and clinical implications

Pea A *et al.* Ampullary carcinoma: molecular and clinical features

Antonio Pea, Giulio Riva, Riccardo Bernasconi, Elisabetta Sereni, Rita Teresa Lawlor, Aldo Scarpa, Claudio Luchini

Abstract

Ampulla of Vater is a peculiar anatomical structure characterized by the crossroad of three distinct epithelia: intestinal, ductal pancreatic and biliary. Adenocarcinomas arising in this area represent an opportunity to understand the comparative biology of all periampullary
