SPECIFIC COMMENTS TO AUTHORS

In this narrative review article, the authors described the pharmacological effects of *Tinospora cordifolia* and *Withania somnifera*, especially in the era of COVID-19. It is an interesting article on traditional herbal medicine in this field of study. 1. The title may include the words COVID-19. 2. The abstract is fine. 3. Introduction is fine. 4. The literature search methods are needed for a review article. The authors should state the primary and secondary outcomes. 5. Core tip is needed. 6. The conclusion is fine. 7. The number of references is acceptable. 8. Figures and tables are fine; however, legends are not enough.
