SPECIFIC COMMENTS TO AUTHORS
This is a good study. The version of PRISMA in use is old. Download and use PRISMA 2020, and update the whole manuscript in accordance with it. Upload the filled out PRISMA 2020. Also change the PRISMA figure of the paper into PRISMA 2020 figure. The paper is good but I am not sure if a meta-analysis is good for this particular journal's scope.
