

Dear Editor,

World Journal of Clinical Pediatrics

We have submitted manuscript no: 98472, Title: "Prediction of cyanotic and acyanotic congenital heart disease using machine learning models" to the journal for possible publication after the invitation.

I am writing this letter to inform you that we obtained verbal consent from the respondents during the data collection process for this paper. We have added a statement to the manuscript as well.

We have taken verbal consent from the hospital and the patient before collecting the data. We ensured that all the protocols were followed before collecting the data.

In case of any query feel free to contact us.

Dr. Haris Khurram

Assistant Professor (Statistics)
