SPECIFIC COMMENTS TO AUTHORS

In the present review the Authors discuss an intriguing topic related to the potential role of circRNAs as clinical biomarkers in patients affected by gastric cancer . In my opinion, the overall level of the paper is very good structured: it is well written and some important considerations are highlighted. The discussion and conclusions sections

SPECIFIC COMMENTS TO AUTHORS

This is an interesting and detailed revision of the current literature in the field. Not being an expert on circRNA, I appreciate the collection of the relevant literature in this nascent field and the table that help the reader to recognize the key contributions. The authors focus on gastric cancer and present a comprehensive analysis of current literature in
