Detection of JC virus infection in progressive multifocal leukoencephalopathy: the first documented case in Thailand.

T Dujneungkunakorn, S Sungkanuparph... - Journal of the Medical ..., 2002 - europepmc.org

Progressive Multifocal Leukoencephalopathy (PML) is a demyelinating brain disease caused by human polyoma JC virus (JCV). This disease is an important cause of morbidity and mortality in AIDS patients. Definite diagnosis currently requires a brain biopsy. PCR ...
