Retrospective Study

Methylation of *IRAK3* is a novel prognostic marker in hepatocellular carcinoma

Chih-Chi Kuo, Yu-Lueng Shih, Her-Young Su, Ming-De Yan, Chung-Bao Hsieh, Chin-Yu Liu, Wei-Ting Huang, Mu-Hsien Yu, Ya-Wen Lin

Abstract

AIM: To examine the methylation level of *IRAK3* and *GLOXD1* and their potential clinical applications in hepatocellular carcinoma (HCC).
