

**Supplemental Table 1 Final classification if multiple oral glucose tolerance tests were performed during a single pregnancy**

OGTT 1	OGTT 2			
	Non-GDM	WHO 1999 only	WHO 2013 only	Both
Non-GDM	1	2	3	4
WHO 1999 only	2	2	4	4
WHO 2013 only	3	4	3	4
Both	4	4	4	4

Example; first oral glucose tolerance test (OGTT) with result 'non-gestational diabetes mellitus (GDM) (group 1)', followed by second OGTT with result 'GDM according to both criteria (group 4)' results in final classification into group 4. Group 1: Women without GDM according to both the World Health Organization (WHO) 1999 and WHO 2013 criteria; Group 2: Women with GDM according to the WHO 1999 criteria but not the WHO 2013 criteria; Group 3: Women with GDM according to the WHO 2013 criteria but not the WHO 1999 criteria; Group 4: Women with GDM according to both criteria. GDM: Gestational diabetes mellitus; OGTT: Oral glucose tolerance test; WHO: World Health Organization.
