**Obstructive sleep apnea syndrome and cardiovascular disease: The influence of C-reactive protein**

Izolde Bouloukaki, Charalampos Mermigkis, Eleftherios M Kallergis, Violeta Moniaki, Eleni Mauroudi, Sophia E Schiza

#### Abstract

Obstructive Sleep Apnea syndrome (OSAS) is a common medical condition, associated with atherosclerosis and cardiovascular disease. The underlying pathophysiologic mechanisms of this association have not been completely understood and may be multifactorial in origin. A number of studies suggest
