PEER-REVIEW REPORT

Name of journal: World Journal of Gastrointestinal Oncology

Manuscript NO: 89115

Title: A predictive model using four ferroptosis-related genes accurately predicts gastric cancer prognosis.

Provenance and peer review: Unsolicited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer’s code: 05388269

Position: Peer Reviewer

Academic degree: MD, RN

Professional title: Assistant Professor, Attending Doctor, Doctor, Nurse, Research Assistant, Staff Physician, Statistician, Surgeon

Reviewer’s Country/Territory: Philippines

Author’s Country/Territory: China

Manuscript submission date: 2023-10-21

Reviewer chosen by: Huo Liu

Reviewer accepted review: 2024-01-13 07:02

Reviewer performed review: 2024-01-13 07:56

Review time: 1 Hour

### SPECIFIC COMMENTS TO AUTHORS

The manuscript is well written. Very extensive literature at the cellular level about prognosis on Gastric cancer, where some related genes described were just newly studied while some described or related to other gastrointestinal organs and not in gastric cancer yet. It opens a new area about gastric cancer to research on.
