

Language Assistant Certificate

This document is to certify that the article below has been edited by professional editors at AiMi (Scientific Editing Experts, United States. AiMi Academic Service, LLC) to ensure that the language is clear and free of errors. The intent of the author's message was not altered in anyway during the editing process. We guarantee the quality of our editing services, with the assumption that our suggested changes have been accepted and have not been further altered without the knowledge of our editors.

TITLE OF THE MANUSCRIPT

High expression of the circadian clock gene NPAS2 is associated with progression and poor prognosis of gastric cancer: A single-center study
