Certificate of Biostatistics Review

This is to certify that the manuscript titled:
Impact of Gut Microbiome on Outcomes Following Endoscopic Interventions in Gastrointestinal Disease has undergone a thorough review by a qualified biostatistician.

Reviewer Information:
Name: Dr. Sweta Singh
Title/Position: Specialist Biostatistician
Institution: Burari Hospital, Delhi
Expertise: Biostatistics, Epidemiology, Data Analysis

Review Details:

- Statistical methods, models, and analyses used in the manuscript have been reviewed for accuracy and appropriateness.
- All data analyses, including statistical tests, sample size calculations, and result interpretation, were evaluated.
- Recommendations for any necessary revisions to statistical methodologies or reporting were provided.

The biostatistics review was performed in accordance with standard scientific practices to ensure the integrity and validity of the statistical analyses. The review confirms that the statistical methodologies are appropriate for the study design and research objectives.

Date of Review: 10.06.2025
