Management and outcome of recurrent gallstone ileus: A systematic review

Shovkat Ahmad Mir, Zeiad Hussain, Christine Ann Davey, Glenn Vincent Miller,
Srinivas Chintapatla

Abstract

AIM: To help the surgeon in decision making when treating a patient with recurrent gallstone ileus.

METHODS: A systematic review related to recurrent gallstone ileus was performed using the databases CINAHL, EMBASE, MEDLINE via PubMed from May 1912 to April 2015. All languages were included and the grey literature was
