**Name of Journal:** *World Journal of Hepatology*

**Manuscript NO:** 39002

**Manuscript Type:** Minireviews

**Status and perspective of laparoscopic repeat liver resection**

Morise Z. Repeat LLR

**Zenichi Morise**

### **Abstract**

Liver resection (LR) is now actively applied to intrahepatic recurrence of liver metastases and hepatocellular carcinoma. Although indications of laparoscopic LR (LLR) have been expanded, there are increased risks of intraoperative complications and conversion in repeat LLR. Controversy still exists for the
