SPECIFIC COMMENTS TO AUTHORS

This case report focus on the new technique which named the EUS-GBD,EUS-GBD let the bile go to the duodenum through the cystic gall duct and gallbladder. Although the patient 's symptom have been relieved,this method could combine with some complication,such as bile leakage,purulent peritonitis...so ,the long outcome should be observed.

SPECIFIC COMMENTS TO AUTHORS

Need to check English grammar. For example this sentence is not understandable - .

The clinical success persistent long-term period, as demonstrated by the absence of new episodes of jaundice or cholangitis.
