SPECIFIC COMMENTS TO AUTHORS

Dear Authors,

1. Excellent case-report by the authors and a well managed case.
2. Were both the surgeries done on the same day? what were the findings of other eye?
3. Why the culture and antibiotic sensitivity not done during every vitreous - tapping?
   As there were multiple recurrences and non - response to conventional intra -vitreal antibiotics?
4. Add one para regarding antibiotic - resistance in current scenario and it's prevention.

Thanks
