SPECIFIC COMMENTS TO AUTHORS
A short paragraph on situs inversus totalis should be added in the introduction. Then, it should be noted how rare congenital tuberculosis and situs inverus association are seen. I recommend that authors benefit from the following articles on situs inversus totalis:
Akbulut S, Caliskan A, Ekin A, Yagmur Y. Left-sided acute appendicitis with situs inversus totalis: review of 63 published cases and report of two cases. J Gastrointest Surg. 2010;14(9):1422-8. In the discussion section, it would be appropriate to add a comment on whether mortality is associated with situs inversus.
