Name of journal: World Journal of Clinical Cases

Manuscript NO: 72994

Title: Qingchang decoction retention enema may induce clinical and mucosal remission in left-sided ulcerative colitis: a case report

Provenance and peer review: Unsolicited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer’s code: 05937294

Position: Peer Reviewer

Academic degree: MD

Professional title: Doctor, Research Assistant Professor

Reviewer’s Country/Territory: Iran

Author’s Country/Territory: China

Manuscript submission date: 2021-11-08

Reviewer chosen by: AI Technique

Reviewer accepted review: 2021-11-08 14:41

Reviewer performed review: 2021-11-09 20:40

Review time: 1 Day and 5 Hours

Scientific quality

[ ] Grade A: Excellent
[ ] Grade B: Very good
[ ] Grade C: Good
[ ] Grade D: Fair
[ ] Grade E: Do not publish

Language quality

[ ] Grade A: Priority publishing
[ ] Grade B: Minor language polishing
[ ] Grade C: A great deal of language polishing
[ ] Grade D: Rejection

Conclusion

[ ] Accept (High priority)
[ ] Accept (General priority)
[ ] Minor revision
[ ] Major revision

In this case report entitled “Qingchang decoction (QCD) retention enema may induce clinical and mucosal remission in left-sided ulcerative colitis: a case report”, the authors reported that the Chinese formula QCD retention enema can effectively reduce both the clinical and mucosal remission of left-sided ulcerative colitis. Two minor comments for your consideration.  1. Redundant abbreviations should be avoided. 2. An editing of English language is recommended.
