SPECIFIC COMMENTS TO AUTHORS

Dear Authors, Your manuscript entitled "periampullary duodenal neuroendocrine tumor in a patient with neurofibromatosis-1: case report and bibliometric analysis", is based on a considerable amount of work and I congratulate you for the work done. The manuscript is well written, it respects the content and presentation criteria. I have some recommendations 1. The title must be written as Sentence case, the first word with a capital letter 2. In each figure you have presented, you must indicate on the figure (with an arrow or asterisk, as you like) what the legend explains.
